ΠΕΡΙΓΡΑΦΗ

The SJCAM SJ5000x is SJCAM's most feature robust Action Camera to date. Upgrading to 12.4mp Sony IMX078 Sensor, Adding Adjustable Viewing angles (70-170 Degrees), and 4K Video record at 24 frames per second (4K24 Interpolated) are all new features packed into the SJCAM SJ5000x Elite Edition – Be the First. The SJCAM SJ5000x Elite ups the ante for the Action Camera marking by adopting the very stable and fast processing speed Sony IMX078cqm image processor. The IMX078 has back-illuminated 12.40M-effective pixel CMOS image sensor to achieve higher resolution from the 12.40M effective pixels. The SJ5000x Elite Edition supports 4K 2880*2160 (interpolated) Hi-res video recording to capture your most memorable moments. Whether you are using the SJ5000x as a FPV Aerial Photography, Capturing priceless family and friend "SJCAM Moments" or as a Dashcam, the SJCAM video quality will never let you down. Gyro Stabilization sensor chip has been added to the SJ5000x allowing it to edit out bumpy parts. SJCAM Zone App by SJCAM allows you to control your SJ5000x with the touch of your iPhone, Android phone or Tablet PC. Remotely control functions and settings; You can also capture photos, record video, or transfer files. The UI is very easy to use. Dive up to 30 meters with SJCAM SJ5000x Waterproof Case.
